Introduction to 1985 Directory of COTH Membership

The Council of Teaching Hospitals (COTH) of the Association of American Medical Colleges (AAMC) is pleased to present its seventeenth annual Directory of COTH Membership. In October of 1967 the Council published its first membership roster. Since that time, COTH has attempted to provide a comprehensive profile of its members each year.

In order to update the data and information, each chief executive officer was requested to complete a data worksheet for the most recent complete fiscal year. The only exception to use of this time frame is for house staff statistics which have been reported as of August, 1984. Please note that the number of total births at each hospital appears in parentheses beneath its census figure.

A description of the codes in this Directory follows this introduction. The approvals, facilities and services, and classification codes were excerpted from American Hospital Association's Guide to the Health Care Field. Medical school affiliations were obtained from the Directory of Residency Training Programs, 1984–85. Due appreciation is expressed to both the American Hospital Association and the Accreditation Council on Graduate Medical Education for permitting our use of their respective data and definitions.

Corresponding Members are listed on page

Information About the Council of Teaching Hospitals

The Council of Teaching Hospitals of the Association of American Medical Colleges was formally established in 1965. Its purpose is to provide representation and services related to the special needs, concerns and opportunities facing major teaching hospitals in the United States. The Council of Teaching Hospitals has input into overall Association policy and direction through two formal bodies: the Executive Council, which includes four members of the COTH Administrative Board, and the AAMC Assembly—the highest legislative body of the AAMC. The following presents information on COTH membership criteria, activities of the AAMC Department of Teaching Hospitals, and participation of COTH members on AAMC committees.

COTH MEMBERSHIP

There are two categories of COTH membership: teaching hospital membership and corresponding membership. Both membership categories require the applicant institution to have a documented affiliation agreement with a medical school accredited by the Liaison Committee on Medical Education and a letter recommending membership from the dean of the affiliated medical school.

Teaching hospital membership is limited to not-for-profit—IRS 501 (C) (3)—and publicly-owned hospitals which sponsor, or significantly participate in, at least four approved, active residency programs. At least two of the approved residency programs must be in the following specialty areas: internal medicine, surgery, obstetrics-gynecology, pediatrics, family practice or psychiatry.

In the case of specialty hospitals—such as children's, rehabilitation and psychiatric institutions—the COTH Administrative Board is authorized to make exceptions to the requirement of four residency programs provided that the specialty hospital meets the membership criteria within the framework of the specialized objectives of the hospital.

Teaching hospital members receive the full range of AAMC and Council services and publications. In addition, their COTH representatives are eligible to participate in the AAMC's governance, organization and committee structure. Teaching hospital membership dues for 1985-86 are $2,490 per year. There are presently 435 members of COTH.

Non-profit and governmental hospitals and medical education organizations (e.g., consortia, foundations, federations) not eligible for teaching hospital membership may wish to apply for corresponding membership. Corresponding members are eligible to attend all open AAMC meetings and to receive the following publications: COTH Report; President's Weekly Activities Report; Assembly Memoranda; COTH Memoranda; Journal of Medical Education; Survey of Housestaff policy; COTH Executive Salary Survey and other periodic publications and surveys. Corresponding membership dues for 1985-86 are $845 per year. Hospitals which are eligible for teaching hospital membership are not eligible for corresponding

membership. There are currently 35 corresponding members of COTH.

The criteria set forth to obtain membership in the Council of Teaching Hospitals were established to provide a basis from which hospitals could organize and promote the hospital as an educational institution. Hospitals differ greatly in the extent of their commitment to educational purposes. Membership in COTH-AAMC should not be utilized as a reimbursement category or as an independent element to construct such categories. Additionally, membership should not be employed to classify hospitals in a research study or for administrative purposes unless specific qualifications and/or controls are employed in this analysis.

At least three major dimensions must be considered when attempting to classify or characterize teaching hospitals:

(1) the severity of illness and complexity of diagnosis which patients bring to the hospital;

(2) the comprehensiveness and/or intensity of services provided by the hospital; and

(3) the institutional commitment to the incremental costs of providing undergraduate and graduate medical education.

There is a great variation in the extent to which each teaching hospital meets these dimensions. Any attempt to characterize or classify the COTH-member hospitals must recognize the limitations of grouping them all based simply upon their membership in COTH.

DEPARTMENT OF TEACHING HOSPITALS

The Department of Teaching Hospitals is the staff component of the Association of American Medical Colleges responsible for representing the interests and concerns of teaching hospitals in AAMC activities.

The staff of the Department of Teaching Hospitals, who are listed on the inside cover of this directory, would encourage individuals interested in further information on any of its activities to contact us by telephone or in writing with their inquiries.

Surveys/Publications

The Department of Teaching Hospitals has five regular publications that are distributed to COTH members at no charge. In addition, the Association, from time to time, publishes special reports on various issues of current interest which are also distributed to COTH members.

The COTH REPORT, which is published ten times a year, reports Washington developments and AAMC activities of concern to COTH members. It also summarizes important findings of studies focusing on current health policy issues. The COTH REPORT is provided at no charge to COTH member hospitals. A subscription fee of $30 is charged to non-COTH members wishing to receive the publication.

The COTH DIRECTORY OF EDUCATIONAL PROGRAMS AND SERVICES is prepared and distributed to all COTH members. The Directory provides a profile of each COTH member hospital, including selected operational and educational program statistics. Questionnaires for the 1985 Directory were mailed in December, 1984.

Each year, the Department of Teaching Hospitals publishes the COTH EXECUTIVE SALARY SURVEY which reports information on the salaries of all chief executive officers of COTH member hospitals. The tables in the report present data on salaries, fringe benefits, and hospital compensation policies by hospital ownership, regional location, type of affiliation and bed size. In addition to the chief executive officer salary information, salary figures are presented for department heads and other types of administrative personnel. Distribution of the COTH Executive Salary Survey is limited to COTH chief executive officers. However, COTH Administrative Board policy does permit COTH hospital board members to receive the survey upon request. In such instances, the chief executive officer will be informed when a copy has been provided to a board member.

The COTH SURVEY OF UNIVERSITY-OWNED TEACHING HOSPITALS' FINANCIAL AND GENERAL OPERATING DATA is prepared annually for the 61 university-owned hospitals in the nation. Information presented in the tables includes detailed hospital data on hospital income sources, expenses, utilization of service and staffing. Distribution of this report is restricted to those institutions participating in the survey.

For the past sixteen years, the COTH SURVEY OF HOUSESTAFF STIPENDS, BENEFITS AND FUNDING has reported the stipends, benefits and funding of housestaff at their institutions. Preliminary findings from this survey are published annually in June and a final report is published in the Fall. The tables in the report include data on housestaff stipends by hospital region, ownership, bed size and affiliation. Fringe benefits for housestaff and sources and amounts of funding per hospital are also presented by these categories. This report is distributed to all COTH member hospitals. Additional copies may be obtained for $7.00.

In the summer of 1984, the AAMC established a committee to examine the issue of the future financing of graduate medical education and to recommend a policy position to the AAMC. In preparation for the first meeting of this committee, the AAMC staff assembled a workbook containing some widely quoted provocative statements, relevant facts and figures, and several useful papers on the subject of financing graduate medical education. Subsequently, this workbook was expanded to include the testimony given by the AAMC at a hearing held by Senator Dave Durenberger (R-MN), Chairman of the Senate Finance Committee's Subcommittee on Health, as well as Senator Durbenberger's opening statement at the hearing and his October, 1984 bill proposing changes to the current structure of Medicare's payment for direct graduate medical education costs. This workbook, entitled *Background Information and Selected Readings Prepared for the Committee on Financing Graduate Medical Education* has been made available to all of those interested in this issue. There is no charge for copies of the workbook.

As a result of its initial deliberations, the Committee on Financing Graduate Medical Education developed a paper articulating the competing views concerning the restructuring of the current method of financing graduate medical education. The competing views of five questions were set forth in a paper entitled *Statement of Issues.* The five questions are: (1.) can teaching hospitals compete in a price driven market and continue to support residency training at current levels or should alternate financing methods be sought; (2.) is it advisable to create a societal funding mechanism for graduate medical education rather than to allow each payor to establish its own policy; (3.) what number of years of training should be publicly financed and what manpower controls are likely to accompany that funding; (4.) how can funding for training in non-hospital sites best be provided; and (5.) what responsibility does the American public have to finance the residency training of physicians who graduate from foreign medical schools? Copies of this paper are available at no charge from the AAMC.

Medicare's Prospective Payment System includes an adjustment which has been labeled the "indirect medical education adjustment." This label was given to the adjustment because it uses the ratio of the number of residents per bed as a proxy for a series of other factors which increase costs in teaching hospitals. Since the inception of the Prospective Payment System, this adjustment has been misunderstood by many. To foster a greater understanding of this adjustment, the AAMC commissioned Judith Lave, Ph.D., the former director of HCFA's Office of Research and currently a professor of health economics at the University of Pittsburgh, to write an account of its history and purpose. Dr. Lave's work, *The Medicare Adjustment for the Indirect Costs of Medical Education: Historical Development and Current Status,* is available at no charge from the Department of Teaching Hospitals.

MEDICAL EDUCATION COSTS IN TEACHING HOSPITALS: AN ANNOTATED BIBLIOGRAPHY provides a comprehensive summary of articles and studies that have been written on the assessment of educational costs in teaching hospitals. Each annotation includes a summary of the objective of the study, the methodology used, and any important findings. A total of 56 studies are reviewed. Copies may be purchased for $4.00.

Special Teaching Hospital Studies

During 1982, the Department of Teaching Hospitals completed a series of studies describing the characteristics of COTH member hospitals. The published reports, which are available from the AAMC's Membership and Subscription service, are A DESCRIPTION OF TEACHING HOSPITAL CHARACTERISTICS (December, 1982); SELECTED DATA ON A SMALL SAMPLE OF TEACHING HOSPITALS (October, 1982); THE DISEASE STAGING CASE MIX OF A SAMPLE OF TEACHING HOSPITALS: A TECHNICAL REPORT (February, 1982); and THE DRG CASE MIX OF A SAMPLE OF TEACHING HOSPITALS: A TECHNICAL REPORT (December, 1981). Copies of all these reports have been distributed to all COTH members.

COTH SPRING MEETING

COTH holds an annual spring meeting for all chief executive officers, who are permitted to bring another representative from their hospital. These two day meetings cover a variety of topics and provide an opportunity for chief executive officers to share ideas and become better acquainted. The 1985 Spring Meeting is scheduled for May 8–10 in San Francisco. The Spring Meeting in 1986 will be held in Philadelphia, May 7–9.

COTH OFFICERS AND ADMINISTRATIVE BOARD

The Administrative Board of the Council of Teaching Hospitals meets four times a year and is authorized to conduct business of the Council of Teaching Hospitals between the annual meetings of the membership. There are nine regular members of the Board, each serving a three year term. In addition, the Immediate Past Chairman, the Chairman, the Chairman-Elect and the Secretary are members of the Administrative Board. Members of the Board are listed on Page v, followed by a list of past COTH Chairmen, COTH Committee appointments and COTH Representatives to the AAMC Assembly.

APPROVAL CODES

Reported by the approving bodies specified, as of the dates noted

1—Accreditation under one of the programs of the Joint Commission on Accreditation of Hospitals; requests for more specific information should be directed to the JCAH (Jan. 1984).

2—Cancer program approved by American College of Surgeons (April 16, 1984).

3—Approval to participate in residency training, by the Accreditation Council for Graduate Medical Education (March 1984).
As of June 30, 1975, internship (formerly code 4) was included under residency, code 3.

5—Medical school affiliation, reported to American Medical Association (March 1984).

6—Hospital-controlled professional nursing school, reported by National League for Nursing, Oct. 15, 1983).

7. Accreditation by Commission on Accreditation of Rehabilitation Facilities (Jan. 1, 1984).

9—Hospital contracting or participating in Blue Cross Plan reported by Blue Cross Association (Feb. 1984).

10—Certified for participation in the Health Insurance for the Aged (Medicare) Program by the Department of Health and Human Services (Jan. 1984).

14—Active care hospital accreditation

15—Psychiatric hospital accreditation

Non-reporting indicates that the 1984-85 annual survey questionnaire for the hospital had not been received by the March 25, 1985 cutoff date for statistical processing.

Data Not Available indicates that the hospital had returned a questionnaire but its statistics were combined with another institutional entity, or were otherwise unusable.

Stay

S—Short-term—average length of stay all patients is less than 30 days or over 50 percent of all patients are admitted to units where average length of stay is less than 30 days.

L—Long-term—average length of stay for all patients is 30 days or more or over 50 percent of all patients are admitted to units where average length of stay is 30 days or more.

AFFILIATION BETWEEN HOSPITALS AND MEDICAL SCHOOLS

The type of medical school affiliation is indicated as G (*Graduate Only*), M (*Major*), or L (*Limited*). The number code following identifies the medical school.

Graduate indicates that the hospital is used by the school for graduate training programs *only*. Thus the *Graduate* designation is used only for hospitals not designated as *Major or Limited* and *only* in cases in which one or more of the following arrangements is in effect:

a) The housestaff are selected by officials of a medical school department or by a joint committee of the hospital teaching staff and medical school faculty.

b) The medical school faculty (other than the hospital's attending staff) are regularly scheduled to participate in the teaching programs of the hospital. If the medical school faculty participation at the hospital is limited to an occasional lecture or consultation visit, or if the hospital's residents attend medical school teaching conferences only as visitors, the hospital is not designated as having a graduate affiliation.

c) A contractual arrangement (with or without financial commitment) specifies the medical school participation in the organization and supervision of the graduate training program in the hospital.

d) There is some degree of exchange of residents between this hospital and the principal teaching hospital of the medical school.

If the hospital is used for undergraduate clerkship teaching, the medical school relationship will be designated as either *Major* or *Limited*, but not *Graduate*.

Major affiliation signifies that the hospital is an important part of the teaching program of the medical school and is a major unit in the clinical clerkship program and will participate in any graduate medical education program of the medical school.

Limited affiliation with a medical school indicates that the hospital is used in the school's teaching program only to a limited extent.
